## **TRAILER ESTATES PARK AND RECREATION DISTRICT DISASTER PREPAREDNESS PLAN PP 20**

This Emergency Preparedness Plan does not cover our residents, their privately owned mobile homes or furnishings. If a disaster occurs, it is important for everyone to know their responsibilities. Owners are responsible for taking due diligence to ensure their property and possessions are fully protected. All costs associated with the removal and/or dismantling of mobile homes shall be borne by the home owner.

To assist all residents, Trailer Estates has established an Emergency Contact Information file. Should an event occur, our seasonal owners will need to inquire if their home/property has been damaged. This emergency contact file will benefit owners, emergency responders and Trailer Estates. An emergency contact form is available in the Trailer Estates Office. Please take the time to complete this form.

As a moral obligation to our residents and their families, the following web sites are provided to assist in developing a personal family emergency preparedness plan, identify important evacuation routes, shelters, and telephone numbers. Residents who need evacuation transportation or require sheltering assistance must be pre-registered. Annual registration is required. The instruction letter and specialty needs application can be found under [www.mymanatee.org](http://www.mymanatee.org), Specialty Needs Registry.

There are several methods residents of Trailer Estates can stay informed of disaster information, evacuation routes, tornado preparedness and shelter information. Local television stations throughout the viewing area provide web sites to download emergency preparedness brochures. TE Channel 732/95 provides emergency preparedness information. Announcements are made at the Board of Trustee meetings. Emergency preparedness information provided by the Fire Department and may periodically be available at the Post Office and Fire Department.

This Emergency Preparedness Plan only covers Trailer Estates assets and contents as identified in our Florida Municipal Insurance Trust (FMIT) plan. Trailer Estates Schedule of Value data, account profile and insurance information is imported directly to SimpliCity. SimpliCity is an online software application developed by Synergy ID and licensed exclusively in the State of Florida to the FMIT. Trailer Estates has elected the SimpliCity Pro feature of the policy. This version provides managing property insurance claims, tracking uncovered losses, overseeing projects, coordinating vendor services and keeping accurate schedules of value for FEMA and other claims processing. This reduces the magnified challenges during post-disaster events.

The Public Relations North Trustee is responsible for the implementation of the Emergency Preparedness Plan. This preparedness plan will be reviewed yearly by the Board of Trustees at the first meeting in April. This will allow sufficient time to implement any applicable modifications to the plan prior to the Hurricane season. The Public Relations North and Maintenance Manager will ensure the account information (i.e., insurance amounts, photo's, additional property) with FMIT is updated and accurately described on a semi-annual basis.

**RE-ENTRY PROCEDURES:**

Should an evacuation occur, Law Enforcement personnel will control the re-entry process. Residents are notified by the media or contact Citizens Center at 941-748-4501.

There are three levels of re-entry:

RED – No entry

YELLOW – Daytime residents only or creditable responders. Residents must provide driver’s license and local utility bills for entry.

# **TRAILER ESTATES PARK AND RECREATION DISTRICT DISASTER PREPAREDNESS PLAN PP 20**

GREEN – Open to all residents.

**HAZARD ANALYSIS:** In this day and age, TE is not just vulnerable to hurricanes. Flooding, tornadoes, fires, terroristic threats, earth quakes, storm surge, lightning strikes, tropical storms, hazardous materials incidents and transportation accidents are just a few.

Tornadoes are the most violent, destructive storms and can devastate an area in seconds. Tornadoes occur most frequently during the months of April, May and June. Whenever severe thunderstorms threaten our area, listen to the radio and television announcements for updates and instructions. If a tornado has been sighted in your area, take the following actions:

Take cover.

Go to the interior part of a building or structure, closet, interior hallway or bathroom.

If these shelters are not available, seek shelter under something sturdy and remain in place until the emergency is over.

If in a vehicle, mobile home or trailer, get out immediately and seek shelter in a building that offers better protection. Do not attempt to flee from a tornado in your vehicle.

Fires are another element that can devastate your home and possessions within minutes. Should you smell or witness smoke, call the Fire Department immediately. Do not attempt to put a fire out by yourself. You should take the following actions to prevent fires:

Test monthly and change batteries twice a year in your smoke detectors.

Test your fire extinguisher for proper levels. Teach family members on proper usage.

Have a fire exit plan in place and discuss with family members.
